VOLUME XXI.

R. L. Polk & Co., Publishers,

33 BASS BLOCK, FORT WAYNE.

Entered according to Act of Congress, in the year 1898, by R. L. Polk & Co., in the office of the Librarian of Congress, at Washington, D. C.

INTRODUCTORY.

The present volume of the Fort Wayne City and Allen County Directory, herewith presented, is its twenty-first edition, and will be found, upon examination, practically complete in every essential, that goes to make a first-class work of its kind. The City Directory is without exception the book most frequently consulted by the majority of citizens of every class, and hence is the most useful. It is as indispensable in all cities of considerable size as electric lighting, street railways or newspapers. By the Directory a close estimate of the population of a city can be made, and the name, home and business occupation of the citizens recorded. It has also a valuable historical character, making its yearly volume useful for the historian and the attorney.

As legal evidence it is in frequent use, and is a recognized authority in the Courts, and in tracing the whereabouts of missing people it is a book of common use. Notwithstanding the business depression throughout the country, we are pleased to note the continued prosperity of our city. The increase of population is evidenced by the increase of names in the Directory, and the following estimate of population may be of interest to all. This volume contains 16,844 names, and by using a multiple of 3 a population of 50,532 is shown. This multiple is used to represent women and children not included in the Directory.

We beg to call special notice to our "Too Late" list of names, commencing on page 8, which consists of the names of people who have moved to our city or changed their residence since the city was canvassed. We continue to get all changes up to the time of going to press and many names not traceable in the alphabetical arrangement of this work will be found in this list. The usual care, for which the publishers have acquired a national reputation, has been devoted to the compilation ,printing and binding, all of which has been done in this city.

With sincere thanks to all who have patronized the work, the press and the public in general, we are,

Respectfully,

R. L. POLK & CO.,

SOLID VESTIBULED TRAIN SERVICE VIA

Grand Trunk Railway System

IN CONNECTION WITH THE

Picturesque Lehigh Valley Railroad, via Niagara Falls.

GRAND TRUNK NEW SINGLE ARCH DOUBLE TRACK STEEL BRIDGE OVER THE NIAGARA RIVER.

The new bridge is a single steel arch of 550 feet in length, supplemented by a trussed span, at either end, of 115 feet in length. This with the approaches, makes the total length of the bridge slightly over 1,100 feet. The railway tracks surmounting the bridge are 252 feet above the water. The bridge has two decks or floors. On the upper floor there are two tracks for railway purposes exclusively, while the lower floor contains a wide central carriageway, double electric railway tracks, and on either side passageway for pedestrians.

As an evidence of the enormous strength of this beautiful structure, the arch is designed to carry on each railway track a load of two locomotives with four pairs of drivers each and 40,000 pounds on each pair, followed by a train of 3,500 pounds per running foot, and is designed to carry in addition a live load of 3,000 pounds per running foot on the lower floor. The general public will, however, probably be better able to arrive at a correct understanding of the enormous sustaining power of the new bridge by the fact that it is calculated to sustain a weight of something over six times the sustaining capacity of the historic Suspension Bridge, which it replaces.

Value of Real Estate depends on government which creates taxation and protects property.

The Government of Cities is the problem of the age: this is generally admitted.

The American Land and Title Register

is the **National Exponent** of these principles, and should be read by every individual who owns real estate, and **votes.**

REAL ESTATE is the basis of all values and credits. Nature's Monopolies, such as **light, heat** and **water,** belong to the people, and should be controlled by the **"Government of the People for the People."**

City Transportation and Telephone Lines should be Operated by the People.

Clippings from **4,000 Daily Newspapers,** and data pertaining to the subjects from thirty special correspondents in different parts of the country, and editorials by able writers are published in each issue of the **REGISTER.**

A Busy Man will save an immense amount of time and money by having this matter thus collected, in one monthly budget. He may acquire a knowledge of all articles published in all parts of the Union on these subjects. He would not be willing to buy all of these papers, and if he did he would not be able to read them; but we produce, carefully digested, all that would interest him.

The Value. **THE REGISTER** is bright, instructive and interesting; it is valuable to all thinking men, but invaluable to all real estate owners and agents, lawyers, bankers and professional men.

The purpose is laudable and the price reasonable, and we ask for your subscription now.

Price only $1.00 per year.
